Catalog of Mouldings

You should find this Catalog the most useful one of its kind.

Not only because it presents the largest stock of Mouldings in the East, but also because we have added many **new designs** to meet new trends.

All the new patterns were designed after most careful study and consideration. Of course, we want the "DYKES MOULDING CATALOG" to continue to be the "Reference Book on Mouldings" throughout the Metropolitan New York area.

All the Designs in this book are ARCHI-TECTURALLY and MECHANICALLY correct. All of our Nine Yards have a substantial stock of all the Patterns and are kept in constant supply from our own Warehouse.

Many of our customers find it very convenient to place copies of this Catalog in the hands of their outside men as well as in their offices. In this way the office and the field men can harmonize their ideas. Should you want extra copies simply ask for them.

Make DYKES STOCK your source of supply for MOULDINGS and you will be as near as possible to "100 per cent" satisfaction.

WHEN DEALING WITH THE

Dykes Lumber Co.

YOU GET

EXCEPTIONAL SERVICE

WITHOUT PAYING EXTRA FOR IT

ur large stock of MOULDINGS is only a small part of the complete service we can render from our nine well-located Yards. In addition we are in a position to supply immediately, from stock, WALLBOARDS in almost any size or thickness as shown below:

FIBRE WALLBOARDS
INSULATION BOARDS
HARD BOARDS
ASBESTOS BOARDS
GYPSUM BOARD
WOOD CORE BOARD

The average Wallboard size is 4 feet wide by 8 feet long. Now picture a panel of Wallboard 8 feet wide by 14 feet long! We have it in stock in Homasote together with other six and eight foot widths in various lengths.

Likewise, you will find every standard item of VE-NEERED PANELS in stock at all of our Yards, both in Hardwood and Softwood.

There are many other special items, such as:

DOWELS
NAILS
ORNAMENTS
TURNINGS
CASCO GLUE
ETC.

to better enable us to give you a complete service.

Of course, our primary business is LUMBER. We carry all types of Hard Woods and Soft Woods, Timbers and Flooring, in varying grades and sizes to meet your most exacting demands. Just recently we introduced in our Idaho and Ponderosa Pine stocks "DOUBLE END TRIMMED" pre-squared Lumber which is cut at the Mill to exact length and comes to you with both ends smooth and squared. Another improvement is the "EASED EDGES" on our Fir Dimension stock, which simplifies its handling and its use.

This brief outline of some of our facilities is, of course, α bid for your business . . . just αs much of it αs you can give us.

You have our assurance that our constant aim is to give our patrons the ultimate in MATERIALS and SERVICE.

THE MOULDINGS shown in this Catalog are grouped, where practical, under the heading or name by which they are most commonly known. However, for the convenience of those not familiar with the trade terms, we have listed in this index after the various names by which Mouldings are sometimes specified, all the pages on which appear patterns that could be used for that particular purpose.

All Mouldings shown in this Catalog are carried in stock in Whitewood or White Pine. or both, unless marked otherwise.

Dykes Lumber Company's

Distributive System

YARDS AND WAREHOUSES:

Manhattan - Brooklyn - L. I. City - Hoboken

Each Yard devotes all its effort to its immediate neighborhood.

All orders are handled by the Yard nearest the point of delivery. In this way orders are easily and quickly dispatched. No unnecessary haulage, no needless delay.

Over Thirty Motor Trucks in constant operation are an assurance of dependable deliveries.

The Most Complete Lumber Service in the Metropolitan District.
